DETAILED ACTION

1. Applicant's 2/5/09 Amendment, which directly amended claim 14 and canceled claim 26, is acknowledged. Upon further review, the examiner noted additional enablement issues that need to be resolved, as indicated below.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 14 and 16-18 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Verification that stresses are acceptable, which is critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976).

Note from Fig. 5 and on page 12 of the Specification that this step is necessary to ensure proper design of the nuclear fuel assembly.

3. Claims 14 and 16-18 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap

between the steps. See MPEP § 2172.01. The omitted step is: verification that stresses are acceptable.

Claim Objections

4. Claim 15 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
